Do you wish to copy large files, such as movies or music, to your hard disk or play them directly from your hard disk? Then this USB 3.0 Starter Kit is the ideal solution. Thanks to a data transfer speed of up to 5 Gbps (10 times as fast as the well-known USB 2.0 standard), it is easy to transfer large media files, such as HD videos or presentations. It is also easier than ever before to install a hard disk with the USB 3.0 Starter Kit. The (3.5 inch SATA) disk can be installed in just a couple of seconds without the need for a screw driver. In short: with the USB 3.0 Starter Kit, you have high-speed data storage in the blink of an eye!
